

200A Metered RV Pedestal

Today's larger campsites / condo campsites offer a variety of amenities unheard of just a short time ago. Midwest Electric's 200 Amp Metered RV Pedestal provides additional amperage and circuit spaces to power gazebos, spas, outdoor kitchens or other enhancements to the outdoor living experience. Optional main circuit breakers are available, allowing the entire pedestal to be disconnected by a single main. In applications where the power pedestals are required to blend into the environment, Midwest offers an attractive optional dark green textured finish.

M275CP6010

- Optional Dark Green Textured Finish M275CP6010G1
- 200A Main Breaker

M675CP6010

- Optional Dark Green Textured Finish M675CP6010G1
- 200A Main Lugs

Similar Characteristics

- Metered w/ Ring-Type Meter Socket
- 200 Amp / 10k AIC
- Popular 50/30/20 Receptacle Configuration
- Weather Resistant/Tamper Resistant 20A GFCI Duplex
- Service Entrance Rated
- Additional Spaces for Future Expansion
- High Quality Components Factory Installed
- Corrosion Resistant G-90 Galvanized Steel
- Rolled Edges for Cable Protection
- Interior/Exterior Grade Level Markings
- Bottom Feed
- UL/CUL Listed
